Prevention is always better than cure So avoidance of danger is always a better alternative than to fight. In an odd and danger a woman can find a way for safety if only she is equipped with the self defence skill In today's society a woman is prone to fall victim to mugging or sexually motivated attack or domestic violence. Is it because the woman by nature is physically weaker and mentally softer? It is a matter of great agony that the woman who is the mother, the caretaker of her children, the carrier of human race finds herself unsafe physically tortured, mentally harassed and sexually assaulted. If so, it is high time for every woman student to be made stronger physically, sharper and older mentally, to be ready to defend herself by being trained with self defence techniques (Every woman student must bear in mind that self defence training is boon to her life, the best gift of her college life. Every sensible citizen should think that women are the property of the nation. So they should be nurtured not tortured. Let us hope for the best for our women. It is the birth right of every woman to have equality in this male dominated society.
